Doug Leinen

Web Development Engineer

daleinen@gmail.com | 773.992.6588 | Chicago IL, 60626   dougleinen.com github.com/daleinen7

I am a software engineer trained in Full-Stack development. My years of experience in audio, design, and team management allow me to bring additional perspectives to my programming work. That along with 6 years of experience building websites as a freelancer has prepared me to transition my passion for development to a full-time career.

EXPERIENCE

General Assembly, Remote: *July 2020 - Present*

- **Teaching Assistant** - Coach students on problem-solving skills, best practices, and general debugging - since March 2021
- **Student** - Full-stack program conducted remotely, providing experience with current languages, tools, and methodologies - 3 months July-October 2020

Code for Chicago: *December 2020 - Present*

- Collaborate with a cross-functional team using Kanban and Weekly Stands
- Write clean code for CfC website and Voma (volunteer management system)
- Provide code reviews and draft documentation for team members

Candy Fluffs: *March 2021 - June 2021*

- Utilized Gatsby, Snipcart, and DatoCMS to build a functional e-shop
- Managed a team of two other developers
- Ensured best practices, a11y and SEO

Good's Fine Picture Framing, Evanston IL: *2016 - 2020*

- **Store Manager** - Supervised a team to ensure timely completion of conservation and display-minded picture framing. Brought the redo percentage down 30% from previous years - *1 year*
- **Production Manager** - Oversaw transition from a paper system to digital as well as maintained day to day production department operations - *2 years*
- **Designer/Fitter** - Brought projects from design to execution for high-end clientele - *1 year*
