Doug Leinen

Web Development Engineer

daleinen@gmail.com | 773.992.6588 | Chicago Il, 60626   dougleinen.com github.com/daleinen7

I am a software engineer with an obsession to meld the rigid logic of programming and the boundless possibilities of art and ideas. I love how form and function combine to improve our lives to make information and tools clearer and more accessible.

EXPERIENCE

General Assembly, Remote: *July 2020 - Present*

- Teacher's Assistant - Coach students on problem solving skills and debugging

- Student - Full-time, full-stack program conducted remotely, providing experience with current front and back-end programming languages, tools, and methodologies

Code for Chicago (volunteer), Remote: *December 2020 - Present*

- Working in a cross-functional team, building multiple landing pages for Code for Chicago with the focus of transitioning the site to be responsive

- Document detailed solutions for peer's future reference through code reviews

Various Freelance Web Projects, Chicago, IL: *2010 - Present*

- Built projects for various clients:
  - Coach House Sounds: Chicago centric basement recording sessions
  - Dumb as a Mug: Web comic for Chicago cartoonist
  - Renee Ross Books: Website promoting work of an author

Good's Fine Picture Framing, Evanston IL: *2016-2020*

- **Manager** - Lead teams to ensure prompt completion of museum quality picture framing. Brought the product quality assurance up 30% from previous years. Lead transition from paper system to digital, in addition to maintaining day to day store operations

- **Designer/Fitter** - Saw projects through, from design to execution for high end clientele
